Z39.50 Configuration Survey for NH ILL

Contact Info

Complete this survey if you chose Option 1 Z39.50 in the *NH ILL Profile Survey*. Details about this option are below. Info on other options is on the NHAIS ILL System web page.

Option 1
Your local automated library system can be connected to the NHAIS Interlibrary Loan System via Z39.50 and make use of real-time availability information for ILL requests. With this option you will need to maintain holdings only in your local system; no additions or deletions will need to be sent to NHAIS to keep your holdings current in compliance with the NHAIS ILL Agreement. This option results in the Z39.50 target receiving many searches and "hits" at any time of day as users search the site.

* Full Name of your Library:

* What town is your library in?

* HSA code of your Library (if unsure check the code list by town)

* Technical Contact Information
In some cases it may be necessary for NHAIS or Auto-Graphics to contact your Systems Librarian or other technical contact when setting up and testing Z39.50 access to your catalog. Provide the contact info for the person to whom such questions should be directed.

Name:

Title:

Daytime phone number (include area code):

email address:

* Who is this the Technical contact for?

☐ Just my library

☐ All the libraries in my consortium

Your Integrated Library System

If your library uses a system that is NOT listed below you will need to connect to NHAIS ILL as a Union Catalog participant and will need to complete the *Union Database Configuration Survey* instead of this one. Visit the <u>NHAIS ILL System web page</u> for more info.

Which system is currently in use in your library?

UserID: [   ]

Password: [   ]

* Who does the configuration info on this page apply to?

☐ Just my library

☐ All the libraries in my consortium

Z39.50 Configuration Survey for NH ILL

Thank you!

The information you have provided will help us get your library set up as a participant in the new NHAIS ILL System.
In addition to this configuration survey a *NH ILL Profile Survey* should have also been completed by your library. If you want patrons to be able to initiate NHAIS ILL requests you will also need to complete the *SIP2 Configuration Survey*. Visit https://www.nh.gov/nhsl/nhais/nhaisillsystem.html for details and to find the links to the relevant surveys.
It would be very helpful if all the surveys for your library are completed on the same day.
